Greatest potential savings with a Delta Dental PPO dentist

Delta Dental PPO plus Premier

The Delta Dental PPO plus Premier network arrangement affords all of the benefits of Delta Dental PPO with a plus: enrolled patients who access a participating Delta Dental Premier dentist (who is not in the PPO network) still receive the benefit of that dentist's contracted fee, thereby limiting out-of-pocket costs.

This seamless dual network approach gives patients access to the largest network of dentists in the nation and supplies patients with our unique safety net feature, adding a level of financial security for enrollees and groups that is unequalled in the industry.

OUT-OF-POCKET COSTS

Here is an example of how the Delta Dental PPO plus Premier arrangement works:

	Delta Dental PPO SM	Delta Dental Premier [®]	Non-Network Dentist
Full Charge of Procedure	\$1,000	\$1,000	\$1,000
Delta Dental's Allowance*	\$800	\$900	\$720
Coinsurance Percent	50% (\$400)	50% (\$450)	50% (\$360)
Patient's Payment	\$400 (800 - \$400 = \$400)	\$450 (900 - \$450 = \$450)	\$640 (1,000 - \$360 = \$640)

* Because Delta Dental network dentists have agreed to accept a lower reimbursement for services, subscribers have higher benefits and lower out-of-pocket costs. This means real cost savings.

The Best of Both

It's simple: The Delta Dental PPO plus Premier network arrangement offers access to the nation's largest network of dental providers while simultaneously offering access to PPO providers who have agreed to accept lower fees for the their Delta Dental patients.

Vision Wellness

Regular eye examinations play a crucial role in ensuring healthy vision and overall health.

- An eye examination can not only detect vision problems, but also can detect the early stages of serious health problems such as diabetes and hypertension.
- One in four children has an undetected vision problem that can interfere with learning, according to the Vision Council of America.
- Undetected eye diseases can lead to worsening eyesight and in some cases irreversible vision loss.
