LAKES REGION ENERGY FAIR COMING IN OCTOBER

Meredith, New Hampshire-The Meredith and Center Harbor Energy Committees have announced plans for the upcoming Lakes Region Energy Fair. According to Ken Colburn, Chairman of the Meredith Energy Committee, "We have purposely timed this event with the colder weather right around the corner. We're reaching out to our neighbors in surrounding communities with the hope of attracting lots of interest."

The Fair is scheduled for Saturday, October, 18, 2014 at the Inter-Lakes High School from 9:30 AM to 2:00 PM. There is no charge to attend and everyone is welcome. The fair will feature a gymnasium full of vendors coupled with 15 topical sessions held throughout the event.

Chris Johnson of the Center Harbor Energy Committee emphasized, "The fair will have something for everyone. If you're responsible for paying the bills, we'll have information on how to fund projects and generate savings through energy conservation. If you're a do-it-yourself home owner, we'll have practical hands-on information. If you are considering a project and would like to learn more about various technologies (including solar panels, pellet fired boilers, domestic hot water alternatives, and financing opportunities) this is the place to come. If you are a big-picture type, we'll have plenty of information on why this is important to all of us."

Mark your calendar now! For more information, like us on Facebook (Lakes Region Energy Fair) or contact: Angela LaBrecque, Meredith Town Planner at alabrecque@meredithnh.org or 677-4228.
